PHL/PHLC PRODUCTS PRICE SCHEDULE

PHLc Gravity Feed Grout (500 Series)

This is our standard, ultra-low-shrinkage, flowable self-consolidating grout for gravity feeding of deep cracks and voids in older masonry structures.

#503: (1-20) 5 gallon pails - \$142.50 each

#503: (>20) 5 gallon pails - \$121.35 each

#504: 3,000 lb. Super-Sacks - Available at a bulk discount upon request

EXTEND Vacuum Saturated Expanded Shale Aggregate (1100 Series)

A cost-saving amendment that floats in suspension within our PHLc Gravity Feed Grout, intended for fill widths of > 2".

#1103: (1-20) 5 gallon pails - \$55.00 each

#1103: (>20) 5 gallon pails - \$45.00 each

#1104: 3,000 lb. Super-Sacks - Available at a bulk discount upon request

PHLc70 Injection Grout (600 Series)

This is a finer, injectable self-consolidating grout for filling narrow cracks and voids in historic masonry, and for injecting through VoidSpan Port Anchors. It can also be used as a moderate-strength adhesive for bonding stone dutchmen and broken fragments.

#601: 1 quart containers - \$65.00 each

#603: (1-20) 5 gallon pails - \$171.00 each

#603: (>20) 5 gallon pails - \$145.50 each

#604: 3,000 lb. Super-Sacks - Available at a bulk discount upon request

PHL and PHLc Mortar Binders (100 & 200 Series)

These ASTM C1707-compliant binders are for the creation of historically compatible mortars under ASTM C1713. Designed to be mixed by the user with local sands (and pigments, if needed), PHL is a pozzolan-lime binder and PHLc has pozzolan, lime and less than 15% of cement. A typical mix ratio is one part binder to 2 parts sand, resulting in 28-day compressive strengths close to the desired minimum strengths of ASTM C270 Type O and Type N, respectively, with our PHL and PHLc binders.

PHL Mortar Binder

#103: (1-20) 5 gallon pails - \$123.00 each

#103: (>20) 5 gallon pails - \$93.00 each

PHLc Mortar Binder

#203: (1-20) 5 gallon pails - \$127.00 each

#203: (>20) 5 gallon pails - \$97.00 each

PHLc Fine Pointing Mortar (300 Series)

This is our ready-to-use mortar for the pointing of the exceptionally narrow "butter joints" that are seen in many brick buildings of the second half of the 19th century.

#303: (1-20) 5 gallon pails - \$163.00 each

#303: (>20) 5 gallon pails - \$138.55 each

PHLc70 Crack Filler (400 Series)

This crack filler is a unique, paste-consistency product that is designed to be used as a surface filler for cracks on vertical planes. It is provided in smaller, re-sealable containers, and can be color-matched with the addition of dry pigments in the field.

#401: 1 quart containers - \$69.00 each

#403: 5 gallon pails - \$185.00 each
